“ Barb and family,

I had the extreme pleasure of knowing Dr. Bernie for over 4 years as his caregiver. I will cherish every moment that I spent with this wonderful man with a really great sense of humor. Oh how he could make me laugh.

“ Barbara and family, I am sorry for your loss and this time of such sadness for you. I am grateful that I got to meet and know Bernie a little, learn something about the person he was. I know that he was a very impressive, talented man who helped countless people. But to me, knowing him just a few years, first and foremost he was a very, very dear man.

I send you all my love,

“ I'm so sorry to hear of Dr. Finneson's passing. Back in 1967 he saved my life. I was only 4 when he operated on me. I wasn't expected to make it but I did thanks to this incredibly talented man. I am now 54 and a nurse and think of him often when taking care of neurosurgery patients. He will always be in my heart.

“ Working at Heron Point for just the past few months, I have come to know and love many of the residents. "Mr. Dr. Finneson" was one of my favorites. Despite his failing health, he always made me smile, often with an unexpected witty remark. We attended the "Senior Prom" on April 12th, and he and I shared a few dances (chair dancing is an art, and he did it very well). I hope that he enjoyed it as much as I did (I think so). I will cherish that memory of him.

“ So sorry to see that Bernie has passed away. He was certainly a one of a kind person. I remember years ago when Bernie was showing me pictures of the pope blessing his hands after the JFK assassination. Bernie was a very talented surgeon and a down to earth guy. I'm sure he will be missed by the many friends he made over his lifetime. Thoughts and prayers to the family.
