“ I have very fond memories of Dr.Kingsbury while working in Seaford De. in the seventies. I learned a lot from him as a young OB nurse and loved working with him. My sympathies to his family

Lynn Crouch - October 31 at 04:31 PM

“ When you left Seaford, like so very many, I was absolutely heartbroken. I trusted you to take care of my family, and you always did. I could talk to you and you always understand. I could call you anytime, and you never got upset. You were truly wonderful and a rare exception —not the rule. Now I find out that you have left us for that glorious home above with your friends and family who have already passed. Audra(a good friend of my daughters), and Barry, a kid I loved) will be so delighted to see you. You had a good long life, and many of the family you leave to cherish, including your special wife who has been your everything, your rock, for 71 years are so proud of the man you were—professionally and personally. The tears we cry will be for us not you. We're just really sad you had to go.

God Bless the amazing Kingsbury family. Dr. kingsbury, my family always loved and respected you, and thought of you fondly and often.
