“ *this remembrance is much too late but I only knew about Al's passing when I read the obit section of the U of Penn Gazette. Al and I crossed paths frequently: in NROTC, the Moore School and same fraternity. Since he was a commuter and I lived on campus, connections were brief. He was smart and fun to be with. I remember one tid bit about light switches (down and out; up and on) - this wisdom of his insured that studying electrical engineering was the right career for him. I am sorry that our paths did not cross after graduation, although a few years ago I did write to him with the idea of stopping off in Easton enroute to Florida - sorry that this did not happen. So my condolences to the family (since this is months too late they may not see it). If I can be in touch with the family I have more to add.
