“ *Betsy was a wonderful, much appreciated volunteer. Ed, I think perhaps she volunteered there because you knew I was moving from Walter Johnson to Rock Terrace and I recommended you encourage her that her skills were needed there. Or perhaps I am not remembering correctly and want to take credit! At any rate, it was a good match because the lemonade she made there came from the lemons she accepted with dignity and positive action. I lost Carl less than a year ago so I know the grieving will go on into the future; I hold you and your family in the light.*
