“ I can't remember the exact date but I think it's been over 20 years. She always love to smile and have lots of fun. As a care giver she gave her heart and soul to every patient she tended to. I spent a lot of time visiting her and all our conversations were very memorable. I can't think of anytime our conversations didn't include the grandkids and Bentley was the light of her heart. When ever I visit she would say look at these pictures of Bentley. She was so proud to be Grammy and great grammy. My heart goes out to the rest of the family that she loved so much also. I find my self wanting to call her and talk. Missing you so much now, I'll miss eating crabs together our occasional lunch and rescuing each other when we need a ride. You will for ever be in my heart ❤️ Rest in peace my friend until we meet again.

I can't remember when we met but I believe it has been over 20 years. I remember how big her heart was and care for other people. She loved to smile and laugh and just like having a great time. When care taken she always gave her heart and soul to that individual. I can't remember any conversation we had that didn't include her grandkids, she loved them so much. And Bentley came along I believe her heart got larger. She was warm hearted and loved life to its fullest. I will miss eating crabs together, your invites for breakfast and our occasional lunch dates at the diner. I'm already missing you my friend, Rest in peace until we meet again 💔
