“ I remember when mommom Agnes would go to town, you me and nana would always play eye spy. And when it was nice outside we would put you in the hammock and nana would always tell me not to tell mommom cuz she thought it was too hot outside (we put you in the shade) lol. And I used to think it was the greatest thing to get up in your bed with you and draw on that doodle pad I had, I remember teaching you how to draw stars. I really miss these times, I'd go back in a heartbeat.

“ *Aunt Charlotte, Nita, & Judy.... Chrissy, Shanna, Nancy, Lyn, Melissa, Janice, and JR. & Zed, Mikhel, Nicole, Bradley, Robbie, and Hailey.... My heart breaks for all of you. I remember coming out to the house & meeting Uncle for the first time with Phyllis over 40 years ago! No matter how bad he may have felt, he always had a smile on his face. Even tho I moved to Louisiana, I had stayed in touch with Phyllis & Sissy ((Chrissy)) & kept up to date on the Family. I'm sending lots of love, my deepest sympathy, and my heartfelt belief that Uncle is with God now, who has ALWAYS been by Uncles side.*

“ *Zed, myself and Jake will always love you.*

Personally I remember many nights and weekends as a child coming out and spending them playing matchboxes and cars, Barbies, school, house and many other fun stuff with you. You had a great imagination and I loved the stories you would start and you and I would finish together when you would call me. I always looked forward to those calls growing up. I know you love me, because true love never dies. I know how tickled you were when we brought Zed to see you after he was born, you said he was your Sweet pea. You loved when Mom and Bryan would bring him out and he would play cars with you. Zed loves you and loved the times he spent with you. Jake remembers the big smile you had when he first met you when we moved back here from Kansas. He is amazed by you and what a kind and loving person you were to him. He was so glad you loved the Smokey and the Bandit car he gave you, having not realized that was one of you favorite movies at the time. As happy as I am for you to be with God and no longer in any pain I am just as sad that you are not here with us. I am sorry that my ways and my own life distracted me from being there during the time we had over the years before. But I have always loved you and always will and you, my Dear Uncle, will always be a Legend in my story. Rest in Peace, we love you and we will miss you until we meet again.

“ Uncle, words cannot describe how much you were loved by everyone and how much you will be missed, absolutely one of a kind. You were such a big part of all of our lives, and we are better for it. I'm going to say just about all of the family has lived with you at one point or another. Even though Hailey and I didn't necessarily live there we definitely spent a lot of time with you growing up. I had the privilege to grow up next door for 20 years. Not a lot of people can say they grew up living next door to their grandparents, and Uncle. For me this was normal. Sometimes we take things for granted, I am blessed to have had that opportunity, and cannot imagine life any other way.

You will live on in our memories. There are so many precious moments and memories. Just a few from me. Playing matchbox cars, getting in the kiddie pool, making mud pies, in the floor playing games, run in's with the rooster, eating candy cigarettes and froot loops at the shop, coming over to watch *The Dukes of Hazzard*. Shanna and I sitting in your bed on snow days watching the snow outside the big window, and rolling in the back of the brown van on the mattress with the sliding door open and plywood up so we wouldn't roll out 🙄
