“ Dear Pat, I was shocked and saddened to learn of Dan's death today. I had not heard from him in some time. I knew he was in poor health as he had emailed me about this some time back. My condolences. I hope you are well. Dan was a very nice man whom I met through my husband when he and Dan would work together on occasion here in California. He had lots of great stories which he shared with us. He, in particular, took an interest in our son, Levi. Once many years ago he bought Levi some Beatle posters which we had matted and framed; this seem to please Dan very much. Levi is now 27 and living in Chicago and has these posters displayed in his home office. Again, my condolences. Take care and good health. Kim D.
