“ I was one of Dawn’s kidney doctors and shared her brave and valiant struggle with this terrible disease. I’ll never forget what a bright light she was in my life. I’m retired now and going through some old letters and documents. I just opened a birthday card she had sent me many years ago - and out popped hundreds of sparkles all over the room. She never failed to brighten any room she entered and even now she was able to do it again. Dawn is dearly missed.
