

Donna Rae Frost

April 6, 1946 - June 27, 2010

Donna Frost was born in New Hampton, Iowa, on April 6, 1946, the only child of Ruth and Donald Wallace. She attended New Hampton public schools and graduated from Iowa State University in Ames with a Bachelor's Degree in Psychology with a minor in Computer Science. She also received a Master's Degree in Geology, also from Iowa State University.

Growing up she was active in Girl Scouts, and planned and completed, with the help of her mother, a Girl Scout troop junior year trip to Europe. She also managed a Girl Scout summer camp in Iowa for a summer in her early twenties. She was a past president of the Prospect Garden Club and was active in the Prospect Bay Yacht Club, the Kent Narrows Sail and Power Squadron and numerous professional organizations.

She managed a Pizza Hut restaurant for about a year for her best friend's husband in Springfield, IL. She worked for the Illinois Environmental Protection Agency also in Springfield, IL where she worked as a geologist in the land pollution prevention program. She then worked for NUS Corp in Gaithersburg, MD and led projects in their Atlanta, GA and Philadelphia, PA offices. Before retiring, she worked for Science Applications International Corp (now SAIC) in Germantown, MD for about ten years. She worked on a wide variety of projects helping the Department of Energy deal with the treatment, storage and disposal of nuclear waste. The company made her a Vice-

president in recognition of her tireless and effective work in resolving many issues

Upon retiring, Donna got involved in her community. She assisted several organizations in quiet ways that helped them achieve their goals.

She is survived by her husband, Jim, of Grasonville and three cousins all residing in Iowa. She also leaves a remarkable number of friends whom she was always loved and for whom she would do anything. A remembrance gathering will be at a later date.
