“ *I was so sorry to hear of the passing of a very dear old friend and colleague Peter. We go back to the mid 70's when we worked together and traveled across the US producing film documentaries for use around the world. Peter taught me to loosen up and enjoy as he always tried to do. He was a highly professional film/video maker whose talents were widely recognized. Over the past few years I would turn to him for advice and assistance with my video projects. He always tried to find a way. He will be deeply missed but his memories will always be with us because of the way his life touched ours. My prayers and thoughts go out to his entire family.##imported-begin##Michael Messinger##imported-end##*

“ Cam: Peter will be sorely missed. Although throughout the years we had our ups and downs, that's what families do. Peter was always in our corner and was an advocate for the creative work produced under his tutelage. He supported my higher education in video production and was my mentor and for that, I am forever grateful. My prayers go out to you and your family.##imported-begin##Diane Park##imported-end##
