“ *I've known Millie for about 20 years. However her wonderful reputation preceded our introduction. Our many interactions over the years just proved to me what a caring person she was. If she saw a need, she set about trying to find a solution - naysayers get out of the way! I and so many others will miss her, especially the community in which she served so faithfully. My thoughts are for comfort and peace to her loved ones during this time.*
