“ *Seeing Patti's sweet smile and open face brings back many memories of the period in which I worked with her at Biospherics. I remember mostly her kind demeanor, her gentle interactions with our team, her superlative wordsmithing, and her intelligence. We became friends over many shared cigarette breaks. I am saddened by her passing. What a wonderful human being. Rest in peace, dear Patti.*

“ **PATTI WAS MY BIG SISTER.** Our parents only 2 children. Throughout our childhood our experiences, was committed to helping me . One example is when I was having a terrible time learning Algebra. We were sitting at a table. When I finally understood the formula and the problem . I repeated it back correctly, she was so elated , jumping up ,her pants ripped. We laughed until we both had tears in our eyes. So, it was my job to sew up the seam, instructing how to sew. Which means I always would sew buttons back on for her,if mom was not available. I have so many many memories. Another one which is quite fondly family history. When she was about 3 , mom took her out back of their apt. building at 3800 14th St.every day to the play area. That yard overlooked Rock Creek Park. There was a duck who followed her around. She named him Elmer. If their outing was a few minutes late, he go to the building door and squawk, pecking on it. Patti had a unique quality for naming cats, cars, stuffed animals. At onetime she had an old Volvo, stickshift. It's name was lounsford. Some of you may remember that. I will miss my only family member that was left. She was 6 years my senior. **REST IN PEACE. I LOVE YOU. GREET DAD AND MOM .** ☐ 🥰 🥰 JEANNIE. 🥹
