“ *There are some people that you have the pleasure of knowing that separate themselves from everyone else. They are the kind of people that when seen, everyone smiles. They are the kind of people that will go that extra mile to take care of whatever you need, and be there whenever you need them. Ray was one of those people. You don't come across too many in your lifetime. You are fortunate to know these people. I only knew Ray for three years. BUT, I knew right away, that Ray was this type of person. He will be greatly missed by all who knew him, including us. There is such a void knowing that Ray is no longer with us. However, we are fortunate to have know him, and appreciate the time we had. We send our sincere condolences to Harriett, his kids, and the rest of the family.##imported-begin##Chris & Dana Moss##imported-end##*

“ We first moved down to the Clayton area around 1999 and we looked forward to our new home and our new property. We had not met many people in the area and we were not used to taking care of a larger property like the one we now had.

Ray had seen me outside trying to take care of some issues with the property and struck up a conversation with me and said he could help if we needed it. I was extremely happy to hear that and was a little taken back since I did not really know him that well but when the weekend came he was there to help just as he had promised.

Since then we had gotten to know Ray and Harriet much better , our kids attended school together, and they introduced us to more people in the neighborhood.

People like Ray are the ones who really made us feel like we are part of the neighborhood and that made our house more like home.

We will miss Ray, just as many others will, with his roadside conversations and willingness to help whatever the situation.

We feel very blessed to have become friends with Ray and his family.##imported-begin##Anthony & Teresa Lennon##imported-end##
