“ *I grew up right across the street from you. You were the only neighbor my family and I ever knew. Thanks for being the coolest neighbor a family could ask to get. I think about you everyday when I pass your house. I know my dad misses talking to you. The good always die before their time. Even though it's been months, and I watched the ambulance come there.....I still can't believe you're gone, I always feel like I'll turn in to my parents driveway and you will be outside and I'll throw you the usual wave....but so far, that hasn't happened, and I know sadly it won't ever again. We miss you Wes!!!*
